Version 1.0.0

What's in latest release of Open SDG?

Open SDG

1. New features
2. Simplified design
3. Improved developer experience

OpenSDG

1. New features
2. Simplified design
3. Improved developer experience

OpenSDG

1. New features:
Front page intro banner

Banner, image, and description to give users a better introduction to the platform. 100% customisable.

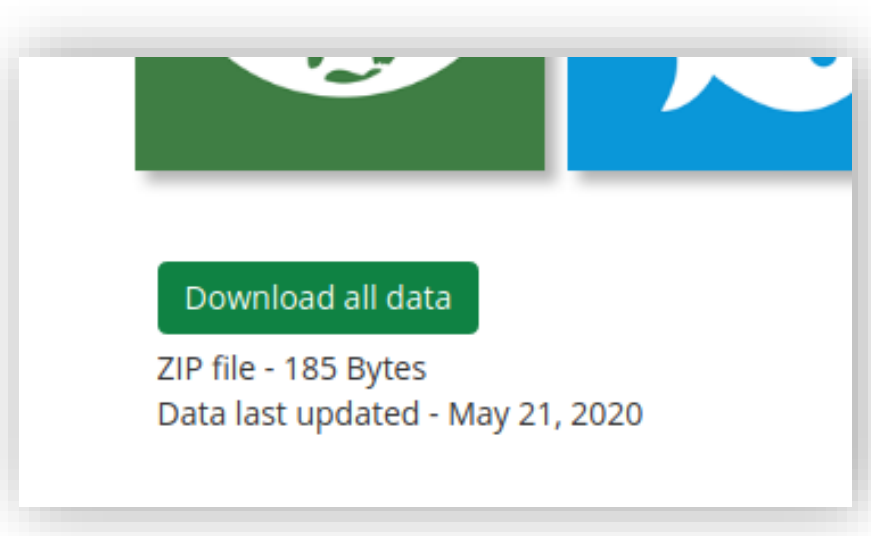

17 goals to transform our world

The Sustainable Development Goals (SDGs) are a universal call to action to end poverty, protect the planet and improve the lives and prospects of everyone, everywhere. The 17 Goals were adopted by all UN Member States in 2015, as part of the 2030 Agenda for Sustainable Development.

OpenSDG

## 1. New features:
Bulk data download

Bulk-download button on the homepage, for easy downloading of all datasets.

OpenSDG

1. New features:
Reporting status tabs

Display reporting status by additional fields, in tabs.

1. New features:
Improved search

Search now includes all pages on the site and shows more relevant search results at the top.

1. New features:
Stacked bar charts

New types of data visualisations are now easier to add, and our first example is stacked bar charts.

Female earnings in comparison with male earnings

1. New features:
Chart titles per unit

The chart title can now be customised for each unit of measurement.

OpenSDG

1. New features

2. Simplified design

3. Improved developer experience

OpenSDG

2. Simplified design:
Headers

2. Simplified design:
Banners

2. Simplified design:
Tabs

1. New features
2. Simplified design
3. Improved developer experience

3. Improved developer experience:
1.0.0: First major release!

- What do these version numbers mean?

    - Major release: **0**.x.x -> **1**.x.x
    - Minor release: x.**0**.x -> x.**1**.x
    - Hotfix release: x.x.**0** -> x.x.**1**

- 1.0.0 is a major release with some breaking changes, but with detailed upgrade instructions.
- Future minor and hotfix releases (1.x.x) will not contain any breaking changes.

OpenSDG

Easier to customise indicator pages

- The indicator page has been split into smaller components
- Simpler code that is easier to understand
- Easier to override specific parts of the indicator page
- Easier to maintain these overrides

OpenSDG

3. Improved developer experience:
Easier to customise styles and colours

- Stylesheets have been split into smaller components
- Simpler code that is easier to understand
- All colours are now specified with "default variables", which allows full control over the colour scheme, without requiring any CSS.

OpenSDG

What's next?

Features planned for version 1.1.0:

- SDMX download

- Multiple series within an indicator

- Customisable homepage

- Comprehensive Indicator Review changes

- More!
